VISION: Helping neighbors lead healthy lives in Bedford.

MISSION: We are dedicated to our mission, to serve all Bedford residents, particularly the under served, and to promote healthy people, healthy families, and a healthy environment through compassionate care, education, and prevention. The Board will create needed regulations, set policy, hold hearings, and consider variances. Your health is our concern.

VALUES: Maintaining a balance between short-term benefit(s) to human life vs. long-term risk. Decision making priority is given to town/community needs vs. individual needs.
